A different perspective

Employers pay for job creation and publication. These costs can be upto $400 / month per job listing

Recruiters can charge upto 10% of base salary as finding fees

ATS and other recruiting solutions charge anywhere from $1000 / mo to $1M / year

Not to mention, employers must also then pay candidate C&B

At Recrouter.com we want to give employers a break. We think you already do your part by creating jobs and helping employee people. Doing it in an organized manner should not cost you money

Recrouter.com is **FREE*** for employers.. **FOREVER**
